

Civic Engagement

Questions

- 1) In a few sentences describe the activity you participated in today, and how that activity related to scientific thinking.
- 2) What was your favorite part of the civic engagement activities? Why? (1-2 paragraphs)
- 3) Describe something you unexpectedly learned during CE?
- 4) Which parts of the activity (or activities) do you think didn't work well?
- 5) What do you think could be done to improve CE?
- 6) One of the objectives of the CE activity is to allow you to experience the interface between scientists and the general population. What do you think is a key role of this interface? Provide an example drawn from today's activities.
